SQLQuery1.sql - PT...A\keerthanas (74)

Create a stored procedure that increases all the product prices by 100. Ensure Atomicity

```
CREATE PROCEDURE IncreaseProductPrices();
BEGIN
    DECLARE Exit HANDLER FOR SQLSERVER
    BEGIN
        -- Rollback in case of error
        ROLLBACK;
    END
    -- Start transaction
    Start TRANSACTION;
    -- Increase prices
    UPDATE Products;
    SET Price = Price. + 100;
```

100 %
